Project Portfolio

Electrical Engineering Projects • Power BI Dashboards • Process Automation • Excel Solutions

PROFESSIONAL SUMMARY

Licensed Electrical Engineer with over three years of experience improving business operations through data analytics, process optimization, and business intelligence. Proven experience designing Power BI dashboards, automating Excel-based reporting, validating high-volume operational data, and supporting cross-functional teams in fast-paced global environments. Recognized for streamlining workflows, improving reporting visibility, and delivering accurate operational insights that support informed business decisions.

PROFESSIONAL EXPERIENCE

Exam Processing Administrator

Business Intelligence | Process Improvement | Operations Analytics

Cambridge University Press & Assessment | 2024 – Present

- Independently identified an opportunity to modernize operational reporting by designing, developing, and deploying an internal Power BI dashboard that replaced a VBA macro-based reporting process, providing supervisors with real-time visibility into daily processing performance, workload distribution, operational KPIs, and examination progress.
- Engineered a centralized reporting solution using Power Query and interactive Power BI visualizations, eliminating manual report consolidation and improving reporting consistency across examination operations.
- Developed Excel-based automation and validation tools that replaced manual record verification, improving processing efficiency while maintaining high data accuracy across examination records.
- Process high-volume examination records exceeding 5,000 candidate entries per examination series, ensuring regulatory compliance, operational accuracy, and on-time delivery across global examination operations.
- Investigate and resolve examination data discrepancies across multiple systems, ensuring data integrity throughout the candidate processing lifecycle.
- Train and mentor temporary staff during peak examination series, accelerating onboarding while maintaining quality standards and operational procedures.
- Collaborate with cross-functional stakeholders to resolve operational issues, improve workflows, and support continuous process improvement initiatives.

Billing Encoder Specialist

Ibajay Water District | July 2023-2024

- Managed billing operations and customer account records for more than 1,000 concessionaires, ensuring accurate billing, timely processing, and reliable data integrity.
- Produced daily billing, collections, cash receipts, and deposit reports, providing management with timely operational and financial insights.
- Validated billing transactions, investigated discrepancies, and maintained accurate billing databases to support efficient financial operations.
- Collaborated with internal departments to resolve customer billing concerns while maintaining accurate account records and high service standards.
- Maintained organized documentation supporting compliance, operational reporting, and audit readiness.

Customer Service Representative

TELUS International Philippines | Jan 2023 – Jun 2023

- Managed customer accounts by resolving billing, payment, and service-related inquiries while consistently meeting productivity and quality targets.
- Investigated account concerns, documented case resolutions, and maintained accurate CRM records to ensure service continuity.
- Consistently exceeded key performance indicators (KPIs) for productivity, quality assurance, and customer satisfaction.

Electrical Engineering Intern

Valiant Advanced Systems and Devices Corporation | May 2022- July 2022

- Reviewed electrical drawings, technical specifications, and engineering documentation supporting construction planning and project execution.
- Coordinated with engineers, contractors, and suppliers to support construction activities, project requirements, and engineering documentation.
- Conducted supplier sourcing, quotation evaluation, and material cost comparisons supporting procurement planning and project budgeting.
- Participated in site inspections to monitor construction progress, verify project requirements, and coordinate with project stakeholders.
- Maintained engineering documentation, material specifications, and project records supporting construction compliance and project execution.

CORE COMPETENCIES

Business Intelligence & Analytics

Power BI • Power Query • DAX • Microsoft Excel • Dashboard Development • Data Visualization • KPI Development • Operational Analytics

Process Improvement & Operations

Process Improvement • Workflow Optimization • Reporting Automation • Data Validation • Business Process Improvement • Cross-functional Collaboration

Engineering & Project Support

Technical Documentation • Electrical Drawing Review • Construction Coordination • Material Procurement • Engineering Documentation

TECH PROFICIENCY

Business Systems: Zendesk, Salesforce, JIRA

Engineering: Registered Electrical Engineer • AutoCAD • Bluebeam (Learning)

Communication: Zoom, Google Meet

Productivity & Admin: Google Workspace (Docs, Sheets, Slides, Drive, Calendar), Microsoft 365, Notion

AI & Automation: ChatGPT, Grammarly, VBA Macro, Claude, Microsoft Copilot

Design & Content: Canva, Figma (Basic)

Project Management: Monday.com

LICENSES

- Licensed Electrical Engineer (Philippines)
- Civil Service Professional Eligibility

EDUCATION

Bachelor of Science in Electrical Engineering

Technological University of the Philippines - Taguig Campus | 2022

- Consistent Dean’s Lister
- President’s Lister

REMOTE WORK READINESS

Internet: Primary: PLDT Fiber 100 Mbps | Backup: Smart 5G mobile hotspot

Power Backup: Generator access in building

Equipment: Lenovo ideapad Slim 12 GB | Dual monitors | Noise-cancelling headset | HD webcam | IPAD

Workspace: Dedicated home office | Quiet environment | Professional video-call background

Availability: Part-time | Flexible across US (EST/PST), UK (GMT), AU (AEST) time zones

LANGUAGES

English: Proficient

Filipino: Native
